

ARC BEAM AD 1100

Amino based salt to reduce growth and wrinkle marks.

Properties

Appearance	:	Colorless clear liquid
pH	:	8,5 ± 0,5 1% Anionic
Active Substance	:	40%±3
Shelf Life	:	20-24 months in the original packaging

Characteristics

- : Fully miscible in water
- : High stability in presence of alkalis hard water
- : It does not produce ammonia, volatile amino or nitrosamines
- : It helps to achieve a more complete removal of globular proteins
- : It improves grain cleaning
- : It produces flat leathers
- : It reduces veins
- : It improves leather softness and flexibility

Applications:

Our tanning experience suggests to use it together with sodium sulphide.

The suggested quantities depend on the hide size, anyway quantities from 1-1.5% are enough to obtain a remarkable reduction in the amount of sulphide and sulfhydrate with the consequence effluence improvement.
