

ARC BEAM ADOS

Special liming auxiliary

Properties

Appearance	:	Pink fluid
pH	:	9.0 ± 0.5 sol. 10%
Active Substance	:	38.0% ± 3.0
Water Solubility	:	Fully miscible
Shelf Life	:	18 months in the original packaging

Characteristics

- : Excellent hair removal adjuncts when added to the lime liquor
- : Accelerates the hair removal without harmful effect on the hide
- : It reduces hair removal time by a direct chemical action on proteins
- : More active than the other liming assistant like Dimethyl amine
- : Reduces the wrinkles and improves the yield
- : It may be applied for air recovering systems
- : It does not generate ammonia, amines and nitrosamines

Applications

ARC BEAM ADOS may be used for air save as well as for air destroy systems. We suggest to soak using ARC BEAM EW and ARC BEAM ERX the combination of both chemicals assures the increase of yield and distension of the air bulb. MERBEAM ADOS gives very fine grain and it is specially adapted for processes.

It may be applied in any kind of hides with suggested quantities between 0.5% and 1.2% depending on the skin's origin and the desired effect.

The use of ARC BEAM ADOS allows the reduction of sodium sulphide, sodium sulfhydrate, lime and other bases involved in the process.
